## A-10C: Tactical Training Qualification Campaign Crack Full Version Download

Download ->>>>>> <http://bit.ly/2NCbV9l>

### About This Content

The A-10C Tactical Training Qualification campaign puts you in the cockpit of an A-10C Warthog, and tests your ability to interact with JTACs, Airborne FACs, AC-130 Gunships and manage Close Air Support (CAS) assets.

Based on real world qualification requirements you will fly 15 performance check rides to execute against pre-defined performance objectives. If successful you will rate a Qualified rating and proceed to the next performance objective.

The campaign covers a number of key areas including FAC & JTAC Coordination, Stationary and Moving Target Tasking, Danger Close Tasking, SEAD Tasking, Deep Interdiction Tasking Day & Night, and Deep Interdiction Special Forces Coordination.

In addition you will work with additional CAS assets and cover SADL Datalink Engagement, CAS Mission Management Day & Night, Battlefield Air Interdiction Mission Management Day & Night, and Combat Search and Rescue (CSAR) Mission Management Day & Night culminating in a final Simulated Combat Mission using everything you have learned in the previous missions.

Additionally 15 single player practice missions are provided so you can perfect your tactics, techniques and procedures. There are over 1300 voiceovers and over 470 pages of briefing material including the A-10C Amplified Checklist, Blue Force In Flight Guide, Operation Agile Spirit SPINS, Maps, Target Diagrams, Mission Data Cards and Custom Kneeboards.

DCS: A-10C Warthog is required.
