THIS IS THE BEST GAME I HAVE EVER PLAYED! IT IS THE BEST SHOOTER I HAVE EVER PLAYED!  
102198489293V10 WOULD PLAY AGAIN!. a winter wonderland of... lawfun?. This is meant to be a platformer for small children, but I think even they would find it dull. It doesn't take long to finish it, then crashes when you do.  
<https://www.youtube.com/watch?v=VKgbt-0I9hs>. SANTA'S BIGGEST ADVENTURES YET AWAIT YOU!  
THIS IS YOUR STORY!. Terrible game.. I beat this game in about 10 minutes gg pretty spicy, the game ends by crashing and then silent snowfall on a black screen. I bought this game as a fun game to stream for Christmas. At first it was cute however the music gets old very quickly, the controls are clunky and the sound affects horrible. You can't mute just the music which is annoying. I ended up finishing the last part of the game with no sound. When you do finish the game there is no credits, just a black screen with snow flakes. I would not reccomend this game, I do not feel that it was worth the dollar I spent.

Santas Big Adventures is a platforming game aimed at kids and casual players. I think it aims for that demographic hoping it's lazy level design, lazy music and lazy everything else can go unnoticed or forgiven. It's a bad game that no matter how cheap it's priced at is not and will never be worth it. This is a lazy cash grab just in time for Christmas.

Check out my full review of this steaming pile of fail below:

<http://nardo.net/2016/12/23/santas-big-adventures-review/>. Sicc Gayme veri gud mekaniqs xddxdxd. meh it was worth a laugh but way too easy to complete lol good game though 7/10. Pros -----

- It might end your life all together

Cons -----

- There is ACTUALLY a level where they spammed enemies in a line.

- There are two levels where you fall and HOPE you run into the presents

- Physics are bad and don't work well in a platformer

- Enemies are boring and the snowman looks like he will

- The game ends in a snowfall on a black background and soft-locks

- One level has text floating that says "Right click to edit text" meaning they added text and left it there. un-changed

- The game took me 15 minutes to finish and I only died due to the AWFUL LEVEL DESIGN!

- The music will make your ears bleed

- Turns out the sprites are stolen (even though there were TWO PEOPLE who did the art)

- The name is dumb

Overall - Hopefully Santa's is bigger than his adventures

0/10

Buy Recommendation - They should pay you to play this game.. This is a classic platformer themed after Santa Claus. I bought it as part of a bundle for the equivalent of 30 cents, and sure, I feel like I received my money's worth. I have young nephews and I think this would be a good candidate to start them off with, just to become familiar with the general concept and typical controls. And the idea of Santa is familiar enough and benign enough that it's appropriate for 5- or 6-year-olds.

All the other sentiments about the crashing ending are true. The game seems to have been abandoned after maybe a dozen levels (some of which are pretty poor by platformer standards, by the way), then released. I find that simply a shame. But so it goes. Who knows who the developers were, and what happened? I sure don't.. This game really filled me with the holiday spirit. The visuals are beautiful, and the gameplay is stunning. The levels are designed in such a way that you will never get bored. I would say that this is easily the best Christmas themed video-game to date. Not to spoil anything, but the ending is super fantastic. Overall a great game. Give it a shot, I'm sure you won't regret it.. I like the fun casual nature of this indie game. Who doesn't like santa?. This game embodies the renaissance mentality I look for in my indie games. I would recommend it to friends, family and the king of Spain.
