Importing and exporting animation in many formats is a breeze. Blending, tweening and drawing frames with various effects is easy, fast and gives a professional look. Blend, tween and draw frames with various effects. Exporting the animation with different profiles is also possible. The animation frames can be exported in video format and easily can be viewed on many devices (e.g. iPad, iPhone, Samsung Galaxy, tablets, TV, laptop, desktop computer). Importing an animation from video format is also very easy. The program allows multiple (2-4) videos with different video quality. This program allows you to synchronize the timeline of different videos. Also, it is very easy to synchronize the video clip of one video with the video clip of other video. Every video and the other videos can have different audio streams. 4) Real-Time 2D motion Tracking & Editor. VIPRE 4.5 Advanced Edition is an extremely powerful solution for tracking and editing in real-time any 2D shape on any type of image background. The program can detect and capture the frames of a video. The detected frames can be rotated, moved, stretched

and scaled. It is very easy to move and delete the selected frames of the video and also to import your own video or photo as a video frame and edit and re-export it as a video. The animation and videos can be exported as video format or uploaded as video frames for Facebook or for YouTube. The program also allows you to preview the video frames. 5) Photo Stamp Tool. Photo Stamp Tool 5 is a revolutionary software for digital photo stitching. This program is designed to apply the stamp effect to your photo by importing multiple digital photos and then merging them into a single image. The result can be saved as a single image, or the merged photos can be exported as various digital formats (e.g. JPG, TIFF, PSD, GIF, BMP, etc.). The program allows you to apply many effects to the merge photos (e.g. brightness, contrast, saturation, hue, saturation, tint, etc.) to create a perfect merge photo. Photo Stamp Tool 5 also allows you to import a photo from the web, or a photo from your smartphone, your computer, etc. The program also supports both local and remote photo gallery and website upload. The software has a unique feature of changing the photo background color to suit your photo. 6) Photo Merge Editor. Photo Merge Editor is 82157476af
